(b) *Defined Terms*. Capitalized terms not defined in this part shall have the meanings assigned to them in §1.3 of this chapter.

**§ 49.3 Procedures for registration.**

(a) *Application procedures*. (1) An applicant, person or entity desiring to be registered as a swap data repository shall file electronically an application for registration on Form SDR provided in appendix A to this part, with the Secretary of the Commission at its headquarters in Washington, DC in a format and in the manner specified by the Secretary of the Commission in accordance with the instructions contained therein.

(2) The application shall include information sufficient to demonstrate compliance with core principles specified in Section 21 of the Act and the regulations thereunder. Form SDR consists of instructions, general questions and a list of Exhibits (documents, information and evidence) required by the Commission in order to determine whether an applicant is able to comply with the core principles. An application will not be considered to be materially complete unless the applicant has submitted, at a minimum, the exhibits as required in Form SDR. If the application is not materially complete, the Commission shall notify the applicant that the application will not be deemed to have been submitted for purposes of the 180-day review procedures.

(3) *180-Day review procedures*. The Commission will review the application for registration as a swap data repository within 180 days of the date of the filing of such application. In considering an application for registration as a swap data repository, the staff of the Commission shall include in its review, an applicant's past relevant submissions and compliance history. At or prior to the conclusion of the 180-day period, the Commission will either by order grant registration; extend, by order, the 180-day review period for good cause; or deny the application for registration as a swap data repository. The 180-day review period shall commence once a completed submission on Form SDR is submitted to the Commission. The determination of when such submission on Form SDR is complete shall be at the sole discretion of the Commission. If deemed appropriate, the Commission may grant registration as a swap data repository subject to conditions. If the Commission

denies an application for registration as a swap data repository, it shall specify the grounds for such denial. In the event of a denial of registration for a swap data repository, any person so denied shall be afforded an opportunity for a hearing before the Commission.

(4) *Standard for approval.* The Commission shall grant the registration of a swap data repository if the Commission finds that such swap data repository is appropriately organized, and has the capacity: to ensure the prompt, accurate and reliable performance of its functions as a swap data repository; comply with any applicable provisions of the Act and regulations thereunder; carry out its functions in a manner consistent with the purposes of Section 21 of the Act and the regulations thereunder; and operate in a fair, equitable and consistent manner. The Commission shall deny registration of a swap data repository if it appears that the application is materially incomplete; fails in form or substance to meet the requirements of Section 21 of the Act and part 49; or is amended or supplemented in a manner that is inconsistent with this § 49.3. The Commission shall notify the applicant seeking registration that the Commission is denying the application setting forth the deficiencies in the application, and/or the manner in which the application fails to meet the requirements of this part.

(5) *Amendments and annual filing.* If any information reported on Form SDR or in any amendment thereto is or becomes inaccurate for any reason, whether before or after the application for registration has been granted, the swap data repository shall promptly file an amendment on Form SDR updating such information. In addition, the swap data repository shall annually file an amendment on Form SDR within 60 days after the end of each fiscal year.

(6) *Service of process.* Each swap data repository shall designate and authorize on Form SDR an agent in the United States, other than a Commission official, who shall accept any notice or service of process, pleadings, or other documents in any action or proceedings brought against the swap data

repository to enforce the Act and the regulations thereunder.

(b) *Provisional registration.* The Commission, upon the request of an applicant, may grant provisional registration of a swap data repository if such applicant is in substantial compliance with the standards set forth in paragraph (a)(4) of this section and is able to demonstrate operational capability, real-time processing, multiple redundancy and robust security controls. Such provisional registration of a swap data repository shall expire on the earlier of: the date that the Commission grants or denies registration of the swap data repository; or the date that the Commission rescinds the temporary registration of the swap data repository. This paragraph (b) shall terminate within such time as determined by the Commission. A provisional registration granted by the Commission does not affect the right of the Commission to grant or deny permanent registration as provided under paragraph (a)(3) of this section.

(c) *Withdrawal of application for registration.* An applicant for registration may withdraw its application submitted pursuant to paragraph (a) of this section by filing with the Commission such a request. Withdrawal of an application for registration shall not affect any action taken or to be taken by the Commission based upon actions, activities, or events occurring during the time that the application for registration was pending with the Commission, and shall not prejudice the filing of a new application by such applicant.

(d) *Reinstatement of dormant registration.* Before accepting or re-accepting swap transaction data, a dormant registered swap data repository as defined in § 40.1(e) of this chapter shall reinstate its registration under the procedures set forth in paragraph (a) of this section; provided, however, that an application for reinstatement may rely upon previously submitted materials that still pertain to, and accurately describe, current conditions.

(e) *Delegation of authority.* (1) The Commission hereby delegates, until it orders otherwise, to the Director of the

Division of Market Oversight or the Director's delegates, with the consultation of the General Counsel or the General Counsel's delegates, the authority to notify an applicant seeking registration as a swap data repository pursuant to Section 21 of the Act that the application is materially incomplete and the 180-day period review period is extended.

(2) The Director of the Division of Market Oversight may submit to the Commission for its consideration any matter which has been delegated in this paragraph.

(3) Nothing in this paragraph prohibits the Commission, at its election, from exercising the authority delegated in paragraph (e)(1) of this section.

(f) *Request for confidential treatment.* An applicant for registration may request confidential treatment for materials submitted in its application as set forth in §§ 40.8 and 145.9 of this chapter. The applicant shall identify with particularity information in the application that will be subject to a request for confidential treatment.

#### § 49.4 Withdrawal from registration.

(a)(1) A registered swap data repository may withdraw its registration by giving notice in writing to the Commission requesting that its registration as a swap data repository be withdrawn, which notice shall be served at least sixty days prior to the date named therein as the date when the withdrawal of registration shall take effect. The request to withdraw shall be made by a person duly authorized by the registrant and shall specify:

(i) The name of the registrant for which withdrawal of registration is being requested;

(ii) The name, address and telephone number of the swap data repository that will have custody of data and records of the registrant;

(iii) The address where such data and records will be located; and

(iv) A statement that the custodial swap data repository is authorized to make such data and records available in accordance with § 1.44.

(2) Prior to filing a request to withdraw, a registered swap data repository shall file an amended Form SDR to up-

date any inaccurate information. A withdrawal of registration shall not affect any action taken or to be taken by the Commission based upon actions, activities or events occurring during the time that the facility was designated by the Commission.

(b) A notice of withdrawal from registration filed by a swap data repository shall become effective for all matters (except as provided in this paragraph (b)) on the 60th day after the filing thereof with the Commission, within such longer period of time as to which such swap data repository consents or which the Commission, by order, may determine as necessary or appropriate in the public interest.

(c) *Revocation of registration for false application.* If, after notice and opportunity for hearing, the Commission finds that any registered swap data repository has obtained its registration by making any false or misleading statements with respect to any material fact or has violated or failed to comply with any provision of the Act and regulations thereunder, the Commission, by order, may revoke the registration. Pending final determination whether any registration shall be revoked, the Commission, by order, may suspend such registration, if such suspension appears to the Commission, after notice and opportunity for hearing, to be necessary or appropriate and in the public interest.

#### § 49.5 Equity interest transfers.

(a) *Equity transfer notification.* Upon entering into any agreement(s) that could result in an equity interest transfer of ten percent or more in the swap data repository, the swap data repository shall file a notification of the equity interest transfer with the Secretary of the Commission at its headquarters in Washington, DC in a format and in the manner specified by the Secretary of the Commission, no later than the business day, as defined in § 40.1 of this chapter, following the date on which the swap data repository enters into a firm obligation to transfer the equity interest. The swap data repository shall also amend any information that is no longer accurate on Form SDR consistent with the procedures set forth in § 49.3 of this part.

(b) *Required information.* The notification must include and be accompanied by: any relevant agreement(s), including any preliminary agreements; any associated changes to relevant corporate documents; a chart outlining any new ownership or corporate or organizational structure; a brief description of the purpose and any impact of the equity interest transfer; and a representation from the swap data repository that it meets all of the requirements of Section 21 of the Act and Commission regulations adopted thereunder. The swap data repository shall keep the Commission apprised of the projected date that the transaction resulting in the equity interest transfer will be consummated, and must provide to the Commission any new agreements or modifications to the original agreement(s) filed pursuant to this section. The swap data repository shall notify the Commission of the consummation of the transaction on the day in which it occurs.

(c) *Certification.* (1) Upon a transfer of an equity interest of ten percent or more in a registered swap data repository, the registered swap data repository shall file with the Secretary of the Commission at its headquarters in Washington, DC in a format and in the manner specified by the Secretary of the Commission, a certification that the registered swap data repository meets all of the requirements of Section 21 of the Act and Commission regulations adopted thereunder, no later than two business days, as defined in § 40.1 of this chapter, following the date on which the equity interest of ten percent or more was acquired. Such certification shall state whether changes to any aspects of the swap data repository's operations were made as a result of such change in ownership, and include a description of any such change(s).

(2) The certification required under this paragraph may rely on and be supported by reference to an application for registration as a swap data repository or prior filings made pursuant to a rule submission requirement, along with any necessary new filings, including new filings that provide any and all material updates of prior submissions.

#### § 49.6 Registration of successor entities.

(a) In the event of a corporate transaction, such as a re-organization, merger, acquisition, bankruptcy or other similar corporate event, that creates a new entity, in which the swap data repository continues to operate, the swap data repository shall request a transfer of the registration, rules, and other matters, no later than 30 days after the succession. The registration of the predecessor shall be deemed to remain effective as the registration of the successor if the successor, within 30 days after such succession, files an application for registration on Form SDR, and the predecessor files a request for vacation of registration on Form SDR *provided, however*, that the registration of the predecessor swap data repository shall cease to be effective 90 days after the application for registration on Form SDR is filed by the successor swap data repository.

(b) If the succession is based solely on a change in the predecessor's date or state of incorporation, form of organization, or composition of a partnership, the successor may, within 30 days after the succession, amend the registration of the predecessor swap data repository on Form SDR to reflect these changes. This amendment shall be an application for registration filed by the predecessor and adopted by the successor.

#### § 49.7 Swap data repositories located in foreign jurisdictions.

Any swap data repository located outside of the United States applying for registration pursuant to § 49.3 of this part shall certify on Form SDR and provide an opinion of counsel that the swap data repository, as a matter of law, is able to provide the Commission with prompt access to the books and records of such swap data repository and that the swap data repository can submit to onsite inspection and examination by the Commission.

#### § 49.8 Procedures for implementing registered swap data repository rules.

(a) *Request for Commission approval of rules.* An applicant for registration as a swap data repository may request that

the Commission approve under Section 5c(c) of the Act, any or all of its rules and subsequent amendments thereto, prior to their implementation or, notwithstanding the provisions of Section 5c(c)(2) of the Act, at anytime thereafter, under the procedures of § 40.5 of this chapter.

(b) Notwithstanding the timeline under § 40.5(c) of this chapter, the rules of a swap data repository that have been submitted for Commission approval at the same time as an application for registration under § 49.3 of this part or to reinstate the registration of a dormant registered swap data repository, as defined in § 40.1 of this chapter, will be deemed approved by the Commission no earlier than when the swap data repository is deemed to be registered or reinstated.

(c) *Self-certification of rules.* Rules of a registered swap data repository not voluntarily submitted for prior Commission approval pursuant to paragraph (a) of this section must be submitted to the Commission with a certification that the rule or rule amendment complies with the Act or rules thereunder pursuant to the procedures of § 40.6 of this chapter, as applicable.

**§ 49.9 Duties of registered swap data repositories.**

(a) *Duties.* To be registered, and maintain registration, as a swap data repository, a registered swap data repository shall:

- (1) Accept swap data as prescribed in § 49.10 for each swap;
- (2) Confirm, as prescribed in § 49.11, with both counterparties to the swap the accuracy of the swap data that was submitted;

(11) Designate an individual to serve as a chief compliance officer who shall comply with § 49.22; and

(12) Subject itself to inspection and examination by the Commission.

(b) This Regulation is not intended to limit, or restrict, the applicability of other provisions of the Act, including, but not limited to, Section 2(a)(13) of the Act and rules and regulations promulgated thereunder.

**§ 49.10 Acceptance of data.**

(a) A registered swap data repository shall establish, maintain, and enforce policies and procedures for the reporting of swap data to the registered swap data repository and shall accept and promptly record all swap data in its selected asset class and other regulatory information that is required to be reported pursuant to part 45 and part 43 of this chapter by designated contract markets, derivatives clearing organizations, swap execution facilities, swap dealers, major swap participants and/or non-swap dealer/non-major swap participant counterparties.

(1) *Electronic connectivity.* For the purpose of accepting all swap data as required by part 45 and part 43, the registered swap data repository shall adopt policies and procedures, including technological protocols, which provide for electronic connectivity between the swap data repository and

designated contract markets, derivatives clearing organizations, swaps execution facilities, swap dealers, major swap participants and/or certain other non-swap dealer/non-major swap participant counterparties who report such data. The technological protocols established by a swap data repository shall provide for the receipt of swap creation data, swap continuation data, real-time public reporting data, and all other data and information required to be reported to such swap data repository. The swap data repository shall ensure that its mechanisms for swap data acceptance are reliable and secure.

(b) A registered swap data repository shall set forth in its application for registration as described in § 49.3 the specific asset class or classes for which it will accept swaps data. If a swap data repository accepts swap data of a particular asset class, then it shall accept data from all swaps of that asset class, unless otherwise prescribed by the Commission.

(c) A registered swap data repository shall establish policies and procedures reasonably designed to prevent any provision in a valid swap from being invalidated or modified through the confirmation or recording process of the swap data repository. The policies and procedures must ensure that the swap data repository's user agreements are designed to prevent any such invalidation or modification.

(d) A registered swap data repository shall establish procedures and provide facilities for effectively resolving disputes over the accuracy of the swap data and positions that are recorded in the registered swap data repository.

#### § 49.11 Confirmation of data accuracy.

(a) A registered swap data repository shall establish policies and procedures to ensure the accuracy of swap data and other regulatory information required to be reported by part 45 that it receives from reporting entities or certain third-party service providers acting on their behalf, such as confirmation or matching service providers.

(b) A registered swap data repository shall confirm the accuracy of all swap data that is submitted pursuant to part 45.

(1) *Confirmation of data accuracy for swap creation data as defined in part 45.*

(i) A registered swap data repository has confirmed the accuracy of swap creation data that was submitted directly by a counterparty if the swap data repository has notified both counterparties of the data that was submitted and received from both counterparties acknowledgement of the accuracy of the swap data and corrections for any errors.

(ii) A registered swap data repository has confirmed the accuracy of swap creation data that was submitted by a swap execution facility, designated contract market, derivatives clearing organization, or third-party service provider who is acting on behalf of a counterparty, if the swap data repository has complied with each of the following:

(A) The swap data repository has formed a reasonable belief that the swap data is accurate;

(B) The swap data that was submitted, or any accompanying information, evidences that both counterparties agreed to the data; and

(C) The swap data repository has provided both counterparties with a 48 hour correction period after which a counterparty is assumed to have acknowledged the accuracy of the swap data.

(2) *Confirmation of data accuracy for swap continuation data as defined in part 45.*

(i) A registered swap data repository has confirmed the accuracy of the swap continuation data that was submitted directly by a counterparty if the swap data repository has notified both counterparties of the data that was submitted and provided both counterparties with a 48 hour correction period after which a counterparty is assumed to have acknowledged the accuracy of the data.

(ii) A registered swap data repository has confirmed the accuracy of swap continuation data that was submitted by a swap execution facility, designated contract market, derivatives clearing organization, or third-party service provider who is acting on behalf of a counterparty, if the swap data repository has complied with each of the following:

## § 49.12

(b) A registered swap data repository shall maintain swap data (including all historical positions) throughout the existence of the swap and for five years following final termination of the swap, during which time the records must be readily accessible by the swap data repository and available to the Commission via real-time electronic access; and in archival storage for which such swap data is retrievable by the swap data repository within three business days.

(c) All records required to be kept pursuant to this Regulation shall be open to inspection upon request by any representative of the Commission and the United States Department of Justice. Copies of all such records shall be provided, at the expense of the swap data repository or person required to keep the record, to any representative of the Commission upon request, either by electronic means, in hard copy, or both, as requested by the Commission.

(b) *Capacity to monitor, screen and analyze data.* A registered swap data repository shall establish and maintain sufficient information technology, staff, and other resources to fulfill the requirements in this § 49.13 in a manner prescribed by the Commission. ### § 49.14 Monitoring, screening and analyzing end-user clearing exemption claims by individual and affiliated entities.

A registered swap data repository shall have automated systems capable of identifying, aggregating, sorting, and filtering all swap transactions that are reported to it which are exempt from clearing pursuant to Section 2(h)(7) of the Act. Such capabilities shall be applicable to any information provided to a swap data repository by or on behalf of an end user regarding how such end user meets the requirements of Sections 2(h)(7)(A)(i), 2(h)(7)(A)(ii), and 2(h)(7)(A)(iii) of the Act and any Commission regulations thereunder.

### § 49.15 Real-time public reporting of swap data.

(a) *Scope.* The provisions of this § 49.15 apply to real-time public reporting of swap data, as defined in part 43 of this chapter.

(b) *Systems to accept and disseminate swap data in connection with real-time public reporting.* A registered swap data repository shall establish such electronic systems as are necessary to accept and publicly disseminate real-time swap data submitted to meet the real-time public reporting obligations of part 43 of this chapter. Any electronic systems established for this purpose must be capable of accepting and ensuring the public dissemination of all data fields required by part 43 of this chapter.

(c) *Duty to notify the commission of untimely data.* A registered swap data repository must notify the Commission of any swap transaction for which the real-time swap data was not received by the swap data repository in accordance with part 43 of this chapter.

**§ 49.16 Privacy and confidentiality requirements of swap data repositories.**

(a) Each swap data repository shall:

(1) Establish, maintain, and enforce written policies and procedures reasonably designed to protect the privacy and confidentiality of any and all SDR Information that is not subject to real-time public reporting set forth in part 43 of this chapter. Such policies and procedures shall include, but are not limited to, policies and procedures to protect the privacy and confidentiality of any and all SDR Information (except for swap data disseminated under part 43) that the swap data repository shares with affiliates and non-affiliated third parties; and

(2) Establish and maintain safeguards, policies, and procedures reasonably designed to prevent the misappropriation or misuse, directly or indirectly, of:

(i) Section 8 Material;

(ii) Other SDR Information; and/or

(iii) Intellectual property, such as trading strategies or portfolio positions, by the swap data repository or any person associated with the swap data repository. Such safeguards, policies, and procedures shall include, but are not limited to,

(c) Subject to Section 8 of the Act, swap data repositories may disclose aggregated swap data on a voluntary basis or as requested, in the form and manner, prescribed by the Commission.

**§ 49.17 Access to SDR data.**

The filing requirement set forth in this § 49.17 will assist the Commission in its analysis of whether a specific Foreign Regulator should be considered “appropriate” for purposes of Section 21(c)(7) of the Act.

(A) The Foreign Regulator is required to file an application in the form and manner prescribed by the Commission.

(B) The Foreign Regulator in its application is required to provide sufficient facts and procedures to permit the Commission to analyze whether the Foreign Regulator employs appropriate confidentiality procedures and to satisfy itself that the information will be disclosed only as permitted by Section 8(e) of the Act.

(ii) The Commission in its analysis of Foreign Regulator applications shall be satisfied that any information potentially provided by a registered swap data repository will not be disclosed except in limited circumstances, such as an adjudicatory action or proceeding involving the Foreign Regulator, as identified in Section 8 of the Act.

(iii) The Commission reserves the right in connection with any determination of an “Appropriate Foreign Regulator” to revisit or reassess a prior determination consistent with the Act.

(3) *Direct Electronic Access.* For the purposes of this regulation, the term “direct electronic access” shall mean an electronic system, platform or framework that provides Internet or Web-based access to real-time swap transaction data and also provides scheduled data transfers to Commission electronic systems.

(c) *Commission access*—(1) *Direct electronic access.* A registered swap data repository shall provide direct electronic access to the Commission or the Commission’s designee, including another registered entity, in order for the Commission to carry out its legal and statutory responsibilities under the Act and related regulations.

(2) *Monitoring tools.* A registered swap data repository is required to provide the Commission with proper tools for the monitoring, screening and analyzing of swap transaction data, including, but not limited to, Web-based services, services that provide automated transfer of data to Commission systems, various software and access to the staff of the swap data repository and/or third-party service providers or agents familiar with the operations of the registered swap data repository, which can provide assistance to the Commission regarding data structure and content. These monitoring tools shall be substantially similar in analytical capability as those provided to the compliance staff and the Chief Compliance Officer of the swap data repository.

(3) *Authorized users.* The swap transaction data provided to the Commission by a registered swap data repository shall be accessible only by authorized users. The swap data repository shall maintain and provide a list of authorized users in the manner and frequency determined by the Commission.

(d) *Other regulators.* (1) *General Procedure for Gaining Access to Registered Swap Data Repository Data.* Appropriate Domestic Regulators and Appropriate Foreign Regulators seeking to gain access to the swap data maintained by a swap data repository are required to apply for access by filing a request for access with the registered swap data repository and certifying that it is acting within the scope of its jurisdiction.

(2) *Appropriate domestic regulator with regulatory responsibility over a swap data repository.* An Appropriate Domestic Regulator that has regulatory jurisdiction over a swap data repository registered with it pursuant to a separate statutory authority that is also registered with the Commission pursuant to this chapter is not subject to this

paragraph (d) and § 49.18(b) as long as the following conditions are met:

(4) *Obligations of the registered swap data repository in connection with appropriate domestic regulator or appropriate foreign regulator requests for data access.*

(i) A registered swap data repository shall promptly notify the Commission regarding any request received by an Appropriate Domestic Regulator or Appropriate Foreign Regulator to gain access to the swaps transaction data maintained by such swap data repository.

(ii) The registered swap data repository shall notify the Commission electronically in a format specified by the Secretary of the Commission.

(5) *Timing.* Once the swap data repository provides the Commission with notification of a request for data access by an Appropriate Domestic Regulator or Appropriate Foreign Regulator as required by paragraph (d)(2) of this section, such swap data repository shall provide access to the requested swap data.

(6) *Confidentiality and indemnification agreement.* Consistent with § 49.18 of this part, the Appropriate Domestic Regulator or Appropriate Foreign Regulator prior to receipt of any requested data or information shall execute a “Confidentiality and Indemnification Agreement” with the registered swap data repository as set forth in Section 21(d) of the Act.

(e) *Third-party service providers to a registered swap data repository.* Access

to the data and information maintained by a registered swap data repository may be necessary for certain third parties that provide various technology and data-related services to a registered swap data repository. Third-party access to the swap data maintained by a swap data repository is permissible subject to the following conditions:

(1) Both the registered swap data repository and the third party service provider shall have strict confidentiality procedures that protect data and information from improper disclosure.

(2) Prior to swap data access, the third-party service provider and the registered swap data repository shall execute a “Confidentiality Agreement” setting forth minimum confidentiality procedures and permissible uses of the information maintained by the swap data repository that are equivalent to the privacy procedures for swap data repositories outlined in § 49.16.

(1) The registered swap data repository is required to adopt and implement adequate “firewalls” or controls to protect the reported swap data required to be maintained under § 49.12 of this part and Section 21(b) of the Act from any improper commercial use.

(2) *Exception.* (A) The swap dealer, counterparty or any other registered entity that submits the swap data maintained by the registered swap data repository may permit the commercial or business use of that data by express written consent.

(B) Swap data repositories shall not as a condition of the reporting of swap transaction data require a reporting party to consent to the use of any reported data for commercial or business purposes.

(3) Swap data repositories responsible for the public dissemination of real-time swap data shall not make commercial use of such data prior to its public dissemination.

**§ 49.18 Confidentiality and indemnification agreement.**

(a) *Purpose.* This section sets forth the obligations of registered swap data repositories to execute a “Confidentiality and Indemnification Agreement” in connection with providing access to swap data to certain domestic and foreign regulators.

(b) *Confidentiality and Indemnification Agreement.* Prior to the registered swap data repository providing access to the swap data with any Appropriate Domestic Regulator or Appropriate Foreign Regulator as defined in § 49.17(b), the swap data repository shall receive a written agreement from each such entity stating that the entity shall abide by the confidentiality requirements described in Section 8 of the Act relating to the swap data that is provided; and each such entity shall agree to indemnify the swap data repository and the Commission for any expenses arising from litigation relating to the information provided under Section 8 of the Act.

(c) *Certain Appropriate Domestic and Foreign Regulators with Regulatory Responsibility over a Swap Data Repository.* The requirements set forth above in paragraph (b) shall not apply to certain Appropriate Domestic and Foreign Regulators with regulatory responsibility over a swap data repository as described in § 49.17(d)(2) and (3). **§ 49.19 Core principles applicable to registered swap data repositories.**

(a) *Compliance with Core Principles.* To be registered, and maintain registra-

tion, a swap data repository shall comply with the core principles as described in this paragraph. Unless otherwise determined by the Commission by rule or regulation, a swap data repository shall have reasonable discretion in establishing the manner in which the swap data repository complies with the core principles described in this paragraph.

(b) *Antitrust Considerations (Core Principle 1).* Unless necessary or appropriate to achieve the purposes of the Act, a registered swap data repository shall avoid adopting any rule or taking any action that results in any unreasonable restraint of trade; or imposing any material anticompetitive burden on trading, clearing or reporting swaps.

(c) *Governance Arrangements (Core Principle 2).* Registered swap data repositories shall establish governance arrangements as set forth in § 49.20.

(d) *Conflicts of Interest (Core Principle 3).* Registered swap data repositories shall manage and minimize conflicts of interest and establish processes for resolving such conflicts of interest as set forth in § 49.21.

the Federal Government, owners, and participants.

(2) Each registered swap data repository shall establish governance arrangements that are well-defined and include a clear organizational structure with consistent lines of responsibility and effective internal controls, including with respect to administration, accounting, and the disclosure of confidential information. § 49.22 of this part contains rules on internal controls applicable to administration and accounting. § 49.16 of this part contains rules on internal controls applicable to the disclosure of confidential information.

Such summaries of significant decisions shall not require the registered swap data repository to disclose Section 8 Material or, where appropriate, information that the swap data repository received on a confidential basis from a reporting entity.

(3) The registered swap data repository shall ensure that the information specified in paragraph (b)(2)(i) to (vii) of this section is current, accurate, clear, and readily accessible, for example, on its Web site. The swap data repository shall set forth such information in a language commonly used in the commodity futures and swap markets and at least one of the domestic language(s) of the jurisdiction in which the swap data repository is located.

(4) Furthermore, the registered swap data repository shall disclose the information specified in paragraph (b)(2)(vii) of this section in a sufficiently comprehensive and detailed fashion so as to permit the public and relevant authorities, including the Commission, to understand the policies or procedures of the swap data repository implicated and the manner in which the decision implements or amends such policies or procedures. **§ 49.21 Conflicts of interest (Core Principle 3).**

(a) *General.* (1) Each registered swap data repository shall establish and enforce rules to minimize conflicts of interest in the decision-making process of the swap data repository, and establish a process for resolving such conflicts of interest.

(2) Nothing in this section shall supersede any requirement applicable to the swap data repository pursuant to § 49.20 of this part.

(b) *Policies and procedures.* (1) Each registered swap data repository shall establish, maintain, and enforce written procedures to:

(i) Identify, on an ongoing basis, existing and potential conflicts of interest; and

(f) *Submission of annual compliance report by Chief Compliance Officer to the Commission.* (1) Prior to submission of the annual compliance report to the Commission, the chief compliance officer shall provide the annual compliance report to the board of the registered swap data repository for its review. If the swap data repository does not have a board, then the annual compliance report shall be provided to the senior officer for their review. Members of the board and the senior officer may not require the chief compliance officer to make any changes to the report. Submission of the report to the board or senior officer, and any subsequent discussion of the report, shall be recorded in board minutes or similar written record, as evidence of compliance with this requirement.

(2) The annual compliance report shall be provided electronically to the Commission not more than 60 days after the end of the registered swap data repository's fiscal year, concurrently with the filing of the annual amendment to Form SDR that must be

(a) *Emergency policies and procedures required.* A registered swap data repository shall establish policies and procedures for the exercise of emergency authority in the event of any emergency,

including but not limited to natural, man-made, and information technology emergencies. Such policies and procedures shall also require a swap data repository to exercise its emergency authority upon request by the Commission. A swap data repository's policies and procedures for the exercise of emergency authority shall be transparent to the Commission and to market participants whose swap transaction data resides at the swap data repository.

(b) *Invocation of emergency authority.* A registered swap data repository's policies and procedures for the exercise of emergency authority shall enumerate the circumstances under which the swap data repository is authorized to invoke its emergency authority and the procedures that it shall follow to declare an emergency. Such policies and procedures shall also address the range of measures that it is authorized to take when exercising such emergency authority.

(c) *Designation of persons authorized to act in an emergency.* A registered swap data repository shall designate one or more officials of the swap data repository as persons authorized to exercise emergency authority on its behalf. A swap data repository shall also establish a chain of command to be used in the event that the designated person(s) is unavailable. A swap data repository shall notify the Commission of the person(s) designated to exercise emergency authority.

(d) *Conflicts of interest.* A registered swap data repository's policies and procedures for the exercise of emergency authority shall include provisions to avoid conflicts of interest in any decisions made pursuant to emergency authority. Such policies and procedures shall also include provisions to consult the swap data repository's chief compliance officer in any emergency decision that may raise potential conflicts of interest.

(e) *Notification to the Commission.* A registered swap data repository's policies and procedures for the exercise of emergency authority shall include provisions to notify the Commission as

soon as reasonably practicable regarding any invocation of emergency authority. When notifying the Commission of any exercise of emergency authority, a swap data repository shall explain the reasons for taking such emergency action, explain how conflicts of interest were minimized, and document the decision-making process. Underlying documentation shall be made available to the Commission upon request.

**§ 49.24 System safeguards.**

(a) Each registered swap data repository shall, with respect to all swap data in its custody:

(1) Establish and maintain a program of risk analysis and oversight to identify and minimize sources of operational risk through the development of appropriate controls and procedures and the development of automated systems that are reliable, secure, and have adequate scalable capacity;

(2) Establish and maintain emergency procedures, backup facilities, and a business continuity-disaster recovery plan that allow for the timely recovery and resumption of operations and the fulfillment of the duties and obligations of the swap data repository; and

(3) Periodically conduct tests to verify that backup resources are sufficient to ensure continued fulfillment of all duties of the swap data repository established by the Act or the Commission's regulations.

(b) A registered swap data repository's program of risk analysis and oversight with respect to its operations and automated systems shall address each of the following categories of risk analysis and oversight:

- (1) Information security;
- (2) Business continuity—disaster recovery planning and resources;
- (3) Capacity and performance planning;
- (4) Systems operations;
- (5) Systems development and quality assurance; and
- (6) Physical security and environmental controls.

(c) In addressing the categories of risk analysis and oversight required under paragraph (b) of this section, a registered swap data repository should

follow generally accepted standards and best practices with respect to the development, operation, reliability, security, and capacity of automated systems.

(d) A registered swap data repository shall maintain a business continuity—disaster recovery plan and business continuity—disaster recovery resources, emergency procedures, and backup facilities sufficient to enable timely recovery and resumption of its operations and resumption of its ongoing fulfillment of its duties and obligations as a swap data repository following any disruption of its operations. Such duties and obligations include, without limitation, the duties set forth in § 49.9 and the core principles set forth in § 49.19; and maintenance of a comprehensive audit trail. The swap data repository's business continuity—disaster recovery plan and resources generally should enable resumption of the swap data repository's operations and resumption of ongoing fulfillment of the swap data repository's duties and obligations during the next business day following the disruption.

(e) Registered swap data repositories determined by the Commission to be critical swap data repositories are subject to more stringent requirements as set forth below.

(1) Each swap data repository that the Commission determines is critical must maintain a disaster recovery plan and business continuity and disaster recovery resources, including infrastructure and personnel, sufficient to enable it to achieve a same-day recovery time objective in the event that its normal capabilities become temporarily inoperable for any reason up to and including a wide-scale disruption.

(2) A same-day recovery time objective is a recovery time objective within the same business day on which normal capabilities become temporarily inoperable for any reason up to and including a wide-scale disruption.

(3) To ensure its ability to achieve a same-day recovery time objective in the event of a wide-scale disruption, each swap data repository that the Commission determines is critical must maintain a degree of geographic dispersal of both infrastructure and personnel such that:

(i) Infrastructure sufficient to enable the swap data repository to meet a same-day recovery time objective after interruption is located outside the relevant area of the infrastructure the entity normally relies upon to conduct activities necessary to the reporting, recordkeeping and/or dissemination of swap data, and does not rely on the same critical transportation, telecommunications, power, water, or other critical infrastructure components the entity normally relies upon for such activities; and

(ii) Personnel sufficient to enable the swap data repository to meet a same-day recovery time objective, after interruption of normal swap data reporting, recordkeeping and/or dissemination by a wide-scale disruption affecting the relevant area in which the personnel the entity normally relies upon to engage in such activities are located, live and work outside that relevant area.

(4) Each swap data repository that the Commission determines is critical must conduct regular, periodic tests of its business continuity and disaster recovery plans and resources and its capacity to achieve a same-day recovery time objective in the event of a wide-scale disruption. The swap data repository shall keep records of the results of such tests, and make the results available to the Commission upon request.

(f) A registered swap data repository that is not determined by the Commission to be a critical swap data repository satisfies the requirement to be able to resume operations and resume ongoing fulfillment of the swap data repository's duties and obligations during the next business day following a disruption by maintaining either:

(1) Infrastructure and personnel resources of its own that are sufficient to ensure timely recovery and resumption of its operations, duties and obligations as a registered swap data repository following any disruption of its operations; or

(2) Contractual arrangements with other registered swap data repositories or disaster recovery service providers, as appropriate, that are sufficient to ensure continued fulfillment of all of the swap data repository's duties and obligations following any disruption of

its operations, both with respect to all swaps reported to the swap data repository and with respect to all swap data contained in the swap data repository.

(g) A registered swap data repository shall notify Commission staff promptly of all:

(1) Systems malfunctions;

(2) Cyber security incidents or targeted threats that actually or potentially jeopardize automated system operation, reliability, security, or capacity; and

(3) Any activation of the swap data repository's business continuity-disaster recovery plan.

(h) A registered swap data repository shall give Commission staff timely advance notice of all:

(1) Planned changes to automated systems that may impact the reliability, security, or adequate scalable capacity of such systems; and

(2) Planned changes to the swap data repository's program of risk analysis and oversight.

(i) A registered swap data repository shall provide to the Commission upon request current copies of its business continuity and disaster recovery plan and other emergency procedures, its assessments of its operational risks, and other documents requested by Commission staff for the purpose of maintaining a current profile of the swap data repository's automated systems.

(j) A registered swap data repository shall conduct regular, periodic, objective testing and review of its automated systems to ensure that they are reliable, secure, and have adequate scalable capacity. It shall also conduct regular, periodic testing and review of its business continuity-disaster recovery capabilities. Both types of testing should be conducted by qualified, independent professionals. Such qualified independent professionals may be independent contractors or employees of the swap data repository, but should not be persons responsible for development or operation of the systems or capabilities being tested. Pursuant to §§1.31, 49.12 and 45.2 of the Commission's Regulations, the swap data repository shall keep records of all such tests, and make all test results available to the Commission upon request.

(k) To the extent practicable, a registered swap data repository should:

(1) Coordinate its business continuity-disaster recovery plan with those of swap execution facilities, designated contract markets, derivatives clearing organizations, swap dealers, and major swap participants who report swap data to the swap data repository, and with those regulators identified in Section 21(c)(7) of the Act, in a manner adequate to enable effective resumption of the registered swap data repository's fulfillment of its duties and obligations following a disruption causing activation of the swap data repository's business continuity and disaster recovery plan;

(2) Participate in periodic, synchronized testing of its business continuity—disaster recovery plan and the business continuity—disaster recovery plans of swap execution facilities, designated contract markets, derivatives clearing organizations, swap dealers, and major swap participants who report swap data to the registered swap data repository, and the business continuity—disaster recovery plans required by the regulators identified in Section 21(c)(7) of the Act; and

(3) Ensure that its business continuity—disaster recovery plan takes into account the business continuity—disaster recovery plans of its telecommunications, power, water, and other essential service providers.

#### § 49.25 Financial resources.

(a) *General rule.* (1) A registered swap data repository shall maintain sufficient financial resources to perform its statutory duties set forth in § 49.9 and the core principles set forth in § 49.19.

(2) An entity that operates as both a swap data repository and a derivatives clearing organization shall also comply with the financial resource requirements applicable to derivatives clearing organizations under § 39.11 of this chapter.

(3) Financial resources shall be considered sufficient if their value is at least equal to a total amount that would enable the swap data repository, or applicant for registration, to cover its operating costs for a period of at least one year, calculated on a rolling basis.

(4) The financial resources described in this paragraph (a) must be independent and separately dedicated to ensure that assets and capital are not used for multiple purposes.

(b) *Types of financial resources.* Financial resources available to satisfy the requirements of paragraph (a) of this section may include:

(1) The swap data repository's own capital; and

(2) Any other financial resource deemed acceptable by the Commission.

(c) *Computation of financial resource requirement.* A registered swap data repository shall, on a quarterly basis, based upon its fiscal year, make a reasonable calculation of its projected operating costs over a 12-month period in order to determine the amount needed to meet the requirements of paragraph (a) of this section. The swap data repository shall have reasonable discretion in determining the methodology used to compute such projected operating costs. The Commission may review the methodology and require changes as appropriate.

(d) *Valuation of financial resources.* At appropriate intervals, but not less than quarterly, a registered swap data repository shall compute the current market value of each financial resource used to meet its obligations under paragraph (a) of this section. Reductions in value to reflect market and credit risk (haircuts) shall be applied as appropriate.

(e) *Liquidity of financial resources.* The financial resources allocated by the registered swap data repository to meet the requirements of paragraph (a) shall include unencumbered, liquid financial assets (*i.e.*, cash and/or highly liquid securities) equal to at least six months' operating costs. If any portion of such financial resources is not sufficiently liquid, the swap data repository may take into account a committed line of credit or similar facility for the purpose of meeting this requirement.

(f) *Reporting requirements.* (1) Each fiscal quarter, or at any time upon Commission request, a registered swap data repository shall report to the Commission the amount of financial resources necessary to meet the requirements of paragraph (a), the value of each financial resource available, computed in

accordance with the requirements of paragraph (d); and provide the Commission with a financial statement, including the balance sheet, income statement, and statement of cash flows of the swap data repository or of its parent company. Financial statements shall be prepared in conformity with generally accepted accounting principles (GAAP) applied on a basis consistent with that of the preceding financial statement.

(2) The calculations required by this paragraph shall be made as of the last business day of the swap data repository's fiscal quarter.

(3) The report shall be filed not later than 17 business days after the end of the swap data repository's fiscal quarter, or at such later time as the Commission may permit, in its discretion, upon request by the swap data repository.

#### **§ 49.26 Disclosure requirements of swap data repositories.**

Before accepting any swap data from a reporting entity or upon a reporting entity's request, a registered swap data repository shall furnish to the reporting entity a disclosure document that contains the following written information, which shall reasonably enable the reporting entity to identify and evaluate accurately the risks and costs associated with using the services of the swap data repository:

(a) The registered swap data repository's criteria for providing others with access to services offered and swap data maintained by the swap data repository;

(b) The registered swap data repository's criteria for those seeking to connect to or link with the swap data repository;

(c) A description of the registered swap data repository's policies and procedures regarding its safeguarding of swap data and operational reliability to protect the confidentiality and security of such data, as described in § 49.24;

(d) The registered swap data repository's policies and procedures reasonably designed to protect the privacy of any and all swap data that the swap data repository receives from a reporting entity, as described in § 49.16;

(e) The registered swap data repository's policies and procedures regarding its non-commercial and/or commercial use of the swap data that it receives from a market participant, any registered entity, or any other person;

(f) The registered swap data repository's dispute resolution procedures;

(g) A description of all the registered swap data repository's services, including any ancillary services;

(h) The registered swap data repository's updated schedule of any fees, rates, dues, unbundled prices, or other charges for all of its services, including any ancillary services; any discounts or rebates offered; and the criteria to benefit from such discounts or rebates; and

(i) A description of the registered swap data repository's governance arrangements.

#### **§ 49.27 Access and fees.**

(a) *Fair, open and equal access.* (1) A registered swap data repository, consistent with Section 21 of the Act, shall provide its services to market participants, including but not limited to designated contract markets, swap execution facilities, derivatives clearing organizations, swap dealers, major swap participants and any other counterparties, on a fair, open and equal basis. For this purpose, a swap data repository shall not provide access to its services on a discriminatory basis but is required to provide its services to all market participants for swaps it accepts in an asset class.

(2) Consistent with the principles of open access set forth in paragraph (a)(1) of this Regulation, a registered swap data repository shall not tie or bundle the offering of mandated regulatory services with other ancillary services that a swap data repository may provide to market participants.

(b) *Fees.* (1) Any fees or charges imposed by a registered swap data repository in connection with the reporting of swap data and any other supplemental or ancillary services provided by such swap data repository shall be equitable and established in a uniform and non-discriminatory manner. Fees or charges shall not be used as an artificial barrier to access to the swap data repository. Swap data repositories

shall not offer preferential pricing arrangements to any market participant on any basis, including volume discounts or reductions unless such discounts or reductions apply to all market participants uniformly and are not otherwise established in a manner that would effectively limit the application of such discount or reduction to a select number of market participants.

(2) All fees or charges are to be fully disclosed and transparent to market participants. At a minimum, the registered swap data repository shall provide a schedule of fees and charges that is accessible by all market participants on its Web site.

(3) The Commission notes that it will not specifically approve the fees charged by registered swap data repositories. However, any and all fees charged by swap data repositories must be consistent with the principles set forth in paragraph (b)(1) of this section.
